Gear Inc. Career Highlights: Gaming Project Turnaround

Took over the underperforming Gaming project in Nov 2023 as Senior Quality Analyst and was promoted to Assistant Quality Manager in Jan 2024. Accuracy has stayed above the 97% KPI in every quarter since, peaking at 99.14%.

Highlights

- **Turnaround:** Raised Gaming accuracy from 96.27% (Q3'23) to 98.68% (Q1'24) through coaching, root-cause marking, and issue resolution.
- **Team leadership:** Managed 7 quality analysts across 4 projects, including coaching and workload balancing.
- **Reporting:** Analyzed performance in Excel (pivot tables, waterfall charts) and sent weekly accuracy reports to managers.
- **Recovery:** After the Q3'24 dip to 97.40%, still above KPI, accuracy rebounded to 98.27% in Q4'24. [Add: cause and fix]

Resume bullet
